2022 – 2023 Safe Patient Handling for Clinicians

University
HOSPITAL

DEPARTMENT OF EDUCATION AND PROFESSIONAL DEVELOPMENT

NJ State Regulation

Purpose:

- Minimize unassisted patient handling & decrease the number of job-related musculoskeletal injuries and disorders suffered by health care workers
- Minimize health care worker days away from work and workers' compensation costs due to job-related musculoskeletal injuries and disorders
- Diminish the role that job-related musculoskeletal injuries and disorders play in exacerbating the loss of health care providers in New Jersey
- Improve the comfort, dignity, satisfaction and quality of care for patients.

NJ State Regulation

The provisions of this subchapter apply to health care workers whose job duties entail patient handling

At UH, this includes all direct care givers including:

- RNs
- CNAs/PCTs/ACTs/Surgical Techs, etc.
- PM&R staff
- Physicians
- And more...

New Jersey Administrative Code 8:43E-12.12

UH Policy & Practice

- Safe Patient Handling Policy Issue #831-200-747
- SPH equipment must be used unless the patient refuses
- Documentation of refusal must include:
 - ✓ Reason for patient refusal
 - ✓ Confirmation that the benefits of SPH equipment were explained to the patient/family
 - ✓ Identification and documentation of alternate means of safely mobilizing the patient

Work Related Injury

- Any patient injury related to the use or non-use of SPH equipment MUST be reported into the Safety Intelligence System
- All staff injuries that are attributed to the use or non-use of SPH equipment MUST be documented on the Employee Incident Report Form

SAFE PATIENT HANDLING EQUIPMENT

One Goal. One Passion. Every Patient. Every Time.

SAFE PATIENT HANDLING EQUIPMENT

FULL ASSIST DEVICES

MAXI MOVE

Weight Capacity 440lbs

MAXI ONCE

MaxiOnce is a single use disposable sliding aid and an ideal solution for lateral transfers. MaxiOnce comes on a roll, which is inserted into the MaxiOnce holder. It can be cut to any length needed. Only the necessary length of material needs to be taken away from the roll before each transfer.

LIMB SLINGS

Designed for single patient use the Limb Clip Flites assists the caregiver with lifting, supporting and positioning the limb for easier access when performing activities such as dressing, foot care, wound care- and venous wrapping. Compatible with Arjo Clip Lift Systems
